

FAST FOLD SCREENS

Imported front and rear projection screens are used, and the front projection uses soft Baimu, with first-class picture quality, fine texture, smooth and smooth texture, flat and non-deformable. Has good wrinkle resistance. Equipped with a portable flight case for easy storage and transportation.

Projection screen material: HD soft screen/HD rear projection soft screen/HD front and rear double projection soft screen

With an aluminium alloy frame and stand, a built-in locking button helps to unfold or fold the frame easily and freely. The precise structure ensures the stability and sturdiness of the screen in indoor and outdoor environments.

It is easy to carry after folding. The frame and fabric will come in two layers, each in a case with universal wheels for durability and convenience.
